SIZING GUIDE

RINGS

Whether you are looking for a gift for a loved one or you just want to know the size that fits you best, welcome to our guide. We look forward to assisting you in determining the correct Cartier ring size.

1 YOU HAVE A CARTIER RING

At Cartier, our goal is to ensure that finding your ring size is as simple as possible.

Therefore, if you already own a Cartier ring, your size should be consistent across all of our collections (with the exception of our Trinity collection). If you cannot remember your ring size, this information can be found on the inner surface of your Cartier ring.

2 YOU DON'T HAVE A CARTIER RING

How to measure your ring size

To determine your size, we strongly advise that you measure the size of your finger rather than the size of your ring.

1. Using a length of string or ribbon, wrap it around the base of your finger. To ensure the ring fits comfortably, we suggest measuring your knuckle as well. We recommend selecting a size that will slide on and off your finger easily.
2. With a pen, mark the point on the string where the ends meet.
3. Measure the string in millimeters with a ruler.
4. Choose the closest measurement to the chart below to identify your ring size.

TIPS

- The string or ribbon must fit snugly to produce an accurate size.
- Finger size can change depending on the time of day and weather; for the most accurate measurement, measure your finger at different times of the day, and on different days to compare.
- Avoid measuring your fingers when they are cold or wet, as they will be at their smallest.

3 YOU WANT TO BUY A GIFT

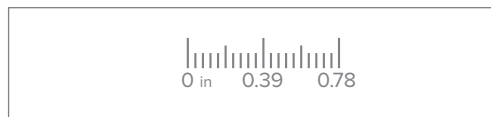

The size of the ring may vary slightly depending on the style of the ring. Therefore, if the ring is intended to be a gift, borrow one of the recipient's rings with a similar width as the ring you would like to purchase (but no wider than 3mm) and use the Sizing Guide below.

If your ring appears to be between two sizes, Cartier recommends choosing the larger size.

And remember that the average size is 52 to 53.

Before printing this guide, be sure to follow the instructions.

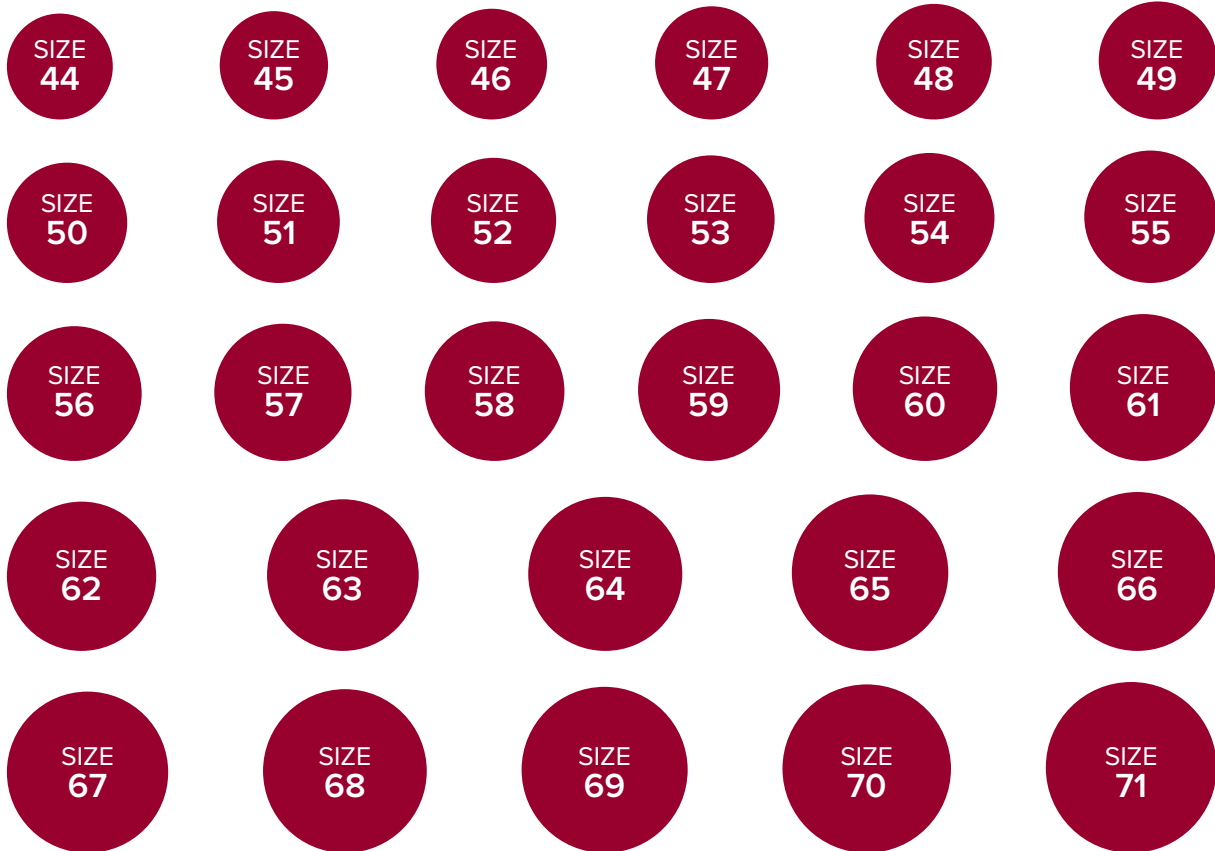

To get the best results, you will need to go to the 'printing settings' before printing and ensure that the 'page scaling' option is set to 'none' in the print dialogue box. The Cartier Ring Size Chart must be printed on a full letter "A4 (8½x11 inches)" size page. To check that the Ring Size Chart has been printed properly, take a ruler and measure the sample below. It should measure exactly **0.7 inches**.

RING SIZING GUIDE

CHOOSING THE SIZE OF A TRINITY RING

Cartier recommends that you select one size smaller than indicated in this guide for the Trinity Collection because the rings are interlinked, making it easier for the ring to slip off with sudden movement. For instance, should your usual size be 50, select a size 49.

For the model set with 96 brilliant-cut diamonds, (references CRB4106200 and CRB4075100), it is necessary to choose 2 sizes larger than indicated in the Cartier Ring Size.

However, for the LM model (reference CRB4052800) you should select 2 sizes smaller instead of one.

If you would like further assistance, we would be delighted to welcome you in one of our Cartier boutiques or you can contact our relations center. We offer complimentary returns and exchanges in accordance with our Conditions of Sale.
